

**The 9th IEEE International Power Electronics and Motion Control Conference - ECCE Asia**

## **Call for Special Sessions**

Following the success of the past International Power Electronics and Motion Control Conferences (IPEMC), the 9th IPEMC2020-ECCE Asia will be held on **May 31-June 3, 2020 in Nanjing, China**. This international conference will provide an opportunity for presenting the cutting-edge technology in power electronics and motion control, exchanging innovative ideas, promoting friendship, and experiencing new culture.

IPEMC 2020 will include special sessions to provide the opportunity to focus in detail on particular emerging topics. Special sessions can cover subjects or cross-subjects belonging to the topics of interest, or novel topics related with the ones identified within the topics of interest. Special sessions can also have the drive from specific R&D projects.

If you intend to propose and organize a special session, please provide the committee at [ipemc2020@nuaa.edu.cn](mailto:ipemc2020@nuaa.edu.cn) with a proposal using the template, and including the following information:

- 1 Title of the Special Session
- 2 Brief description of the area of concern (approx. 100 words)
- 3 The name and contact information of TWO or more special session organizers (multi-nationals preferred and multi-institutional mandatory), who are willing to promote and organize a sufficient amount of quality submissions to the special session. Please also indicate the background of the organizers.
- 4 A list of potential authors and their affiliations
- 5 A list of international potential reviewers and their affiliations

## **Organization of special sessions**

Once approved, it is the duty of the Organizers to publicize the Special Session among researchers and practitioners in the field and attract a sufficient number of papers.

Papers submitted to special sessions will undergo the same review process as regular papers. The special session organizers of the respective special session are responsible for organizing the review process, assuring at least three reviews per paper. This includes selection of reviewers from their peers.

A minimum of 5 accepted papers with authors from at least 3 independent institutions (other than the organizers institutions) and two different countries is required for each session. If a session has too few papers, accepted papers will be allocated to regular sessions wherever possible.

When a Special Session is finally accepted by the conference, Special Session organizers will serve as Session chairs in the conference.

## Important date

**Deadline for submission of Special Sessions Proposals: September 15, 2019**
